39. (Internal Use Only - GLC) LIAISON The Director signed and I handcarried to John Swanner, Staff Director, House Committee on Standards of Official Conduct, one of the two originals of the Memorandum of Understanding between the Committee and the Director. Swanner said he would be sure John Nields and Peter White, also of the Committee staff, know that it has been returned signed.

Swanner also handed me seven summaries of FBI field investigations of prospective Committee employees who will have access to our information. I told Swanner I would get them to [redacted] 25X1
25X1 [redacted] DD/OS, so they could meet on personnel security and other security matters. Swanner mentioned that Danny Coulson is the FBI agent with whom they are in contact with on these matters. I asked Swanner about clearances on White and Leon Jaworski. White just happened to call Swanner while I was in his office and he discussed the matter with him. They are taking the necessary actions to get the FBI investigations.

I asked Swanner if Jaworski or White had reviewed the Memorandum of Understanding and he said they had not, that this was something the Committee had acted on prior to the Jaworski appointment...interesting point.
